SUSTAINABLE PROCUREMENT INNOVATIVE SUCCESS STORIES FROM 5 CONTINENTS

Tim Nelson

Head of Economics, Policy and Sustainability - AGL Energy

OPENING SPEECH 6PM

Financing Australia's clean energy transformation : an outline of new financing techniques to facilitate more investment in renewable energy.

JOINT INITIATIVES TO DELIVER GREATER RESULTS

Annie Sorel

Accredited Evaluator

The French Label on Responsible Supplier Relationship

The French Government certifies organisations that have sustainable and balanced relationships with their suppliers. After a 3-year experimentation with 25 private companies and 3 public organisations, it's now going full speed.

Shaun McCarthy

Chair

The UK Supply Chain Sustainability School

The School is a multi-award winning initiative which represents a common approach to addressing sustainability within supply chains in the Construction, Infrastructure and FM sectors. It counts more than 10,000 members, including 34 of UK's top companies.

Jean-Louis Haie

Managing Director

ISO20400, the first ISO standard on sustainable procurement

ISO20400, to be published in early 2017, will shape the future of what sustainable procurement and supply chains look like worldwide. It is being developed by 47 countries and major organisations such as the UN and the OECD.

Farid Yaker

Program Manager

10-year FYP Sustainable Public Procurement (SPP) Program

This programme, led by UNEP and co-led by Korea Environmental Industry & Technology Institute and ICLEI-Local Governments for Sustainability aims at building the case and supporting the implementation of SPP worldwide. It counts 86 partners in more than 40 different countries, including 30 national governments.

GETTING THINGS DONE IN YOUR ORGANISATION

Rosimeri Fauth

Chief Procurement Officer

Itaipu Binacional: Managing change towards sustainability

The Itaipu dam, a world leader in clean and renewable energy, is an iconic infrastructure between Brasil and Paraguay that requires 3000 staff and \$150M of spend with suppliers per year. The vision and strong commitment of the top management triggered a structured programme in which everybody has a role to play.

Josh Jacobs

Public Affairs Manager

US Federal Government Sustainable Procurement Program

The US Federal Government spends around \$530 billion and the state and local authorities having jurisdiction in the US around \$1.5 trillion per year on goods and services. With this amount of money at stake, markets can be transformed and put in a position to truly impact sustainability.

Hidemi Tomita

Procurement Working Group Member

Tokyo Olympic Games 2020: getting suppliers on board

Organising Olympic Games involves extensive planning with thousands of suppliers. Tokyo 2020 has established a Procurement Working Group that drives the sustainable procurement programme with a Supplier Code of Conduct at its center.
